FICHAS DE EMPRESAS

Todos los Tickers - Vision General por Sector

186 empresas / tickers analizados

Cada ficha incluye: nombre completo de la empresa, descripcion de sus principales lineas de negocio, anio de fundacion, pais de origen, cantidad de empleados y los 3 principales accionistas institucionales.

Sectores incluidos:

- Robotica / IA / Computacion Cuantica
- Software / Cloud / Internet
- E-Commerce
- Consumo Discrecional
- Salud / Farmaceutica / Biotech
- Mineria / Metales / Litio
- Real Estate / Construccion
- Industrial / Manufactura
- Latinoamerica
- ETFs
- Semiconductores
- Autos Electricos / Movilidad
- Finanzas / Bancos / Pagos
- Consumo Defensivo
- Energia
- Aeroespacial / Defensa / Aviacion
- Telecomunicaciones / Medios
- Acciones Brasilenas
- Cripto / Blockchain

IONQ

IonQ, Inc.

Technology | Computer Hardware | Estados Unidos | Empleados: 1.132

Fundacion y origen

Anio de fundacion: No disponible | Pais: Estados Unidos

Descripcion y principales lineas de negocio

IonQ, Inc. develops quantum computing systems in the United States, Switzerland, and Internationally. It sells access to quantum computers of various qubit capacities. The company also makes access to its quantum computers through cloud platforms, such as Amazon Web Services (AWS), Braket, Microsoft's Azure Quantum, and Google's Cloud Marketplace, as well as through its cloud service. The company engages in quantum-safe communications and quantum detection systems. It provides contracts associated with the design, development, construction, and sale of specialized quantum computing hardware systems; maintenance and support services; and consulting services related to co-developing algorithms on quantum computing systems. The company has ...

Quantum Computing Inc.

Technology | Computer Hardware | Estados Unidos | Empleados: 72

Fundacion y origen

Anio de fundacion: No disponible | Pais: Estados Unidos

Descripcion y principales lineas de negocio

Quantum Computing Inc., an integrated photonics company, provides quantum machines to commercial and government markets in the United States. The company develops thin-film lithium niobate chips for optical devices, such as electro-optical modulators, periodically poled devices for frequency conversion, and micro-ring resonator cavities markets. It is also developing the entropy quantum computer (EQC), a quantum application of Core Photonics Technology, designed to solve complex optimization problems. In addition, the company offers Emucore, a reservoir computing machine that can be reprogrammed after manufacturing and optimized for recurrent neural network applications; Neurawave, a photonics based reservoir computer; LiDAR, which allow...

Descripcion y principales lineas de negocio

The index is designed to track the performance of approximately 100 clean energy-related companies. The fund generally invests at least 80% of its assets in the component securities of the index and in investments that have economic characteristics that are substantially identical to the component securities of the index and may invest up to 20% of its assets in certain futures, options and swap contracts, cash and cash equivalents, as well as in securities not included in the index. It is non-diversified.

Anio de fundacion: No disponible | Pais: No disponible

Descripcion y principales lineas de negocio

The Trust holds gold bars and from time to time, issues Baskets in exchange for deposits of gold and distributes gold in connection with redemptions of Baskets. The investment objective of the Trust is for the Shares to reflect the performance of the price of gold bullion, less the Trust's expenses. The Sponsor believes that, for many investors, the Shares represent a cost-effective investment in gold.
